MyRecognition @hpe

Great job, Prasad! Tapan Shah recognized you in the Peer-to-Peer FY17 Program for the value Partnership First.

Below shows the impact you made to HPE:

Prasad - I just wanted to say that you have been doing amazing for our customers. There are a number of occasions wherein I know I was in a situation and you have sailed me through with your excellent product knowledge and extraordinary experience. A few of the recent examples include nailing down NNMi - OMi integration issues faced at NEX (Earlier ICAP) wherein without your awesome finding, we would not have been able to finish a 4 hours WebEx session successfully! Similarly, your inputs for best practices in managing agents in load balanced environment for GM is highly appreciated and we have used the similar concepts at many other customers - this is a true example of 1-to-n contribution(s)!! Thanks a lot, Prasad - you are a true partner in success!!

Thank you for putting HPE values into action! A copy of this recognition was sent to your manager.
